

PENNSYLVANIA'S **YELLOW** PHASE

WHAT DOES IT MEAN FOR YOU?

We have worked hard to “slow the spread” of COVID-19. Moving forward won’t be like a light switch, more like moving a dial.

Continue to follow the instructions for YELLOW to keep moving forward and to prevent us going back into RED. People with many risk factors should continue to use extreme caution, even in yellow.

Do your part to keep you, your family and your neighbors safe:

Large gatherings of more than 25 are prohibited.

← 6 feet →

Continue to maintain physical distance from others in public settings.

When doing business face-to-face, customers and employees should wear a mask that covers your nose and mouth.

Continue to work from home if you can.

Wash your hands and continue to disinfect your space often.

It's safe for you to seek care for medical needs (related to COVID-19 or not).

Here's what else you can expect in yellow: childcare open following State guidance, in-person retail allowed (curbside and delivery preferred), carry-out and delivery only for restaurants and bars.
